

Screenshot of table after manually adding and deleting table (test SQL script):

The screenshot shows a MySQL terminal window titled "fireant - mysql -u student1 -p - 239x33". The terminal output shows the following commands and results:

```
mysql> use CSDA38;
Reading table information for completion of table and column names
You can turn off this feature to get a quicker startup with -A

Database changed
mysql> select * from anthony_movies_data;
```

The desktop background is a colorful abstract pattern. Desktop icons visible include "tabledropped", "javathings", "hwgarlandtickets.parkzp...d21e.pdf", "Radware_Threat_Report_X...6283.pdf", "index.jsp", and "tablemanuallycreated".

Screenshots after running jsp file that reads the SQL file:

The screenshot shows a web browser window with the address bar displaying 'localhost:8080/database1_war_explored/'. The page title is 'Active Movie Records'. Below the title, a green message states 'Uploading all current records from table:'. A table with 7 columns (ID, Movie Name, Production Companies, Run Time (Minutes), Budget (USD), Box Office (USD), Release Date) displays 14 movie records. The table is styled with a light blue header and alternating row colors. The background shows a desktop environment with various icons and a sidebar on the left.
